7. Data gaps

Gaps in the input files of this report, listed and never filled (see how gaps are handled).

ITEM	REASON	DATA FILE
Global Fund grants (not captured)	The Global Fund data API address tried (fetch.theglobalfund.org v3.4 OData) returned 404. Kenya grants go to national principal recipients and are not split by county in the public grant list; Siaya amounts would need sub-recipient reports.	`data/siaya-programmes.json`
foreignassistance.gov / USAID DEC (blocked)	foreignassistance.gov returned 403 to the request. USAID and CDC activities above come from the same publishers' IATI files. DEC evaluations for Siaya were not searched.	`data/siaya-programmes.json`
IATI Datastore (not used)	d-portal serves the same IATI XML; the Datastore API needs a key.	`data/siaya-programmes.json`
Kenya Red Cross Siaya flood records (not captured)	No Siaya-specific record in saved sources.	`data/siaya-programmes.json`
County development partner register (not captured)	The county website menu lists 'Development Partners Programmes' (KDSP II, KeLCoP) but no partner register with amounts was saved.	`data/siaya-programmes.json`
Independent evaluations with Siaya disaggregation (none found)	World Bank IEG ratings cover whole projects; no evaluation in the saved sources reports Siaya-specific results (R-006).	`data/siaya-programmes.json`
Siaya-specific spend of multi-county programmes (not captured)	Only the county-booked grants (SIA-G-018 to SIA-G-028) give Siaya amounts. All other amounts are pooled totals.	`data/siaya-programmes.json`
